Work Experience

IT Executive **04/2023 - Current**

UPMSCL *Lucknow, India*

- Facilitating the transition of the state's **medical headquarters** from **manual record-keeping** to **digital processes** by coordinating the implementation of **Equipment Maintenance and Management Software (EMMS)** thereby enhancing the efficient tracking of medical equipments.
- Establishing a systematic approach for tracking and overseeing the **inventory of medical equipments** across **75 districts** in the state, including the management of assets valued at over **1200 crores**.
- Coordinating the **data assembly process** through joint efforts with the organizational teams to collect, organize, and input precise data into the EMMS. This enhances and streamlines the management of medical equipments.
- Working in **collaboration with the stakeholders** to understand the unique requirements and workflows of the medical organization, customizing EMMS features to **ensure compliance** with **regulatory standards**.
- **Querying the databases** to **extract data** and perform in-depth analysis to **generate insightful reports**.
- Formulating comprehensive **Software Development Life Cycle (SDLC) and rollout plans,** ensuring alignment with organizational objectives, adherence to quality standards, and optimal resource utilization, while also developing **user manuals** and **documentation** to support software implementation and usage.
- Facilitating **User Acceptance Testing (UAT),** consolidating feedback to refine software functionality, and monitoring **Key Performance Indicators (KPIs)** to evaluate software effectiveness and drive continuous improvement.
- Crafting and delivering **presentations** to **senior management** to communicate project status and recommendations.

Senior Relationship Manager **07/2022 - 03/2023**

ICICI Securities Ltd. *Ghaziabad, India*

- **Analyzed** client **portfolios** and assisted them in building better ones through proper **asset allocation** and **periodic rebalancing.**
- Managed a customer base of **200+ clients** with total **Assets Under Management (AUM)** exceeding **13 Crores.**
- Expanded my **SIP (Systematic Investment Plan) Book** by over **33%.**
- Identified opportunities to **cross-sell** various **bank products** based on the **client's needs.**
- Enhanced **client relationships** through consistent personal visits, promptly addressing and resolving **service-related queries.**
- Helped **spread financial awareness.**
